THE CLEAN AIR PEOPLE

Description

Rainbow Mini-Wedge Deep Bed Filters are available in standard sizes with an efficiency of G4, F5, F6, F7 and F8 and are suitable for general purpose filtration applications in industrial and commercial applications. The Mini-Wedge Deep Bed Filters are suited to non-critical applications or as a pre-filter to extend the life of the secondary filter.

Construction

Mini-Wedge G4-F5 filter media is manufactured from bonded synthetic fibres. F6-F7 and F8 media can be an additional filter option that can be applied to give a higher efficiency to the Mini-Wedge Configuration. All media types are moisture and fungus resistant and will not shed fibres into the clean air stream. Standard mounting frames consist of an outer frame and inner basket assembly as illustrated to the right. The outer frame consists of a 2mm epoxy coated galvanised frame, with a 6mm Epoxy inner basket assembly. Options include 304 and 316 grade stainless steel and reverse flow configurations. An economical version is available consisting of a galvanised outer frame and a Mini-Wedge bag and wire arrangement.

1. The Main Mounting or Fixed Frame, incorporates a specially designed wire "Media Support Frame". This frame ensures that the media does not vibrate or flap when in use, or sag when the system is turned off, thus preventing accumulated dust from vibrating loose and passing into the air stream on start-up.
2. The inner Media Retaining Frame, creates a positive seal between the media and the main frame, thus ensuring there is no bypass. This frame also has a shaped wire frame incorporated to form the media bag into the correct shape.
3. The Filter Bag, is sewn into a wedge shape and the point of the wedge is drawn back into the center of the filter, thus giving a large media area in proportion to the face area and the depth of the filter.

PERFORMANCE DATA				
- Mini Wedge Deep Bed Filters -				
Product Code	Nominal Size (mm)	Airflow Capacity (l/sec)	Initial Resistance (Pascals)	Efficiency
MW90-G4-01	508 x 408 x 290	523	35	G4
MW90-G4-02	508 x 508 x 290	655	35	G4
MW90-G4-03	635 x 408 x 290	655	35	G4
MW90-G4-04	635 x 508 x 290	819	35	G4
MW90-G4-05	762 x 508 x 290	982	35	G4
