THE CLEAN AIR PEOPLE

Rainbow Baffle Filters for Kitchen Exhaust Systems are designed to give safe, dependable and positive flame barrier protection.

Efficient grease removal with the smooth vertical surface of the baffles ensures the grease runs down into the hood collection troughs.

The Baffle Filters are made from Aluminium or Stainless Steel.

Resistance is 150 pascals for the air capacities of the standard size filters as listed below.

NOTE: FOR STAINLESS STEEL USE "JBS4" IN PLACE OF JB PREFIX LISTED BELOW
