**THE CLEAN AIR PEOPLE**

### Description

The “Rainbow Enviropleat” was designed as a cost effective, low maintenance extended surface veeform filter that meets filter efficiencies ranging from G2 to F9 by simply replacing the filter media.

The hinged gate allows for easy replacement of filter media that is pre-pleated held together with weld mesh on both sides for strength. The “Rainbow Enviropleat” is also :

- ✓ Environmentally friendly (reduced land fill as filter media is only to be replaced on an ongoing basis);
- ✓ Cost effective replacement insert media, (frame is a once off purchase);
- ✓ Accepts all Rainbow filter medias from G2-F9;
- ✓ Water resistant;
- ✓ 100% Australian made;
- ✓ Available in any size;
- ✓ Filter media supported both sides;
- ✓ Light weight, easy to install and service; and
- ✓ Economical to transport (carton of 10 conventional metal frame or cardboard frame filters converts to 30 “Rainbow Enviropleat” replacements in the same size carton).

### Options

- Non Standard Sizes Readily Available
- Available with Stainless Steel frame.

PERFORMANCE DATA				
- Enviroframe with G4 Media Pleat -				
Product Code	Nominal Size (mm)	Airflow Capacity (l/sec)	Initial Resistance (Pa)	Efficiency
ENVIROFR/PL-01	495 x 395 x 45	358	50	G4
