

ECOPLEAT PANEL FILTERS

Ecopleat filter with replaceable pleats was designed as a cost effective, low maintenance extended surface veeform filter than meets G4 filter efficiency.

The “stand alone” pleats are fully replaceable

They will not rack or deteriorate under normal operating conditions.

Expanded metal pleat support grid mesh

- High loft media increases dust holding capacity
- Excellent primary filter to prevent dust build-up on heating and cooling coils, fans, and ductwork
- Excellent prefilter for higher efficiency filters
- Directly interchangeable with disposable panel filters, media pads in metal frames, or permanent filters used in built-up filter banks and side access systems. No modifications are necessary to frames or latches

PERFORMANCE DATA				
- ECOPLEAT PANEL FILTER-				
Product Code	Nominal Size (mm)	Airflow Capacity (l/sec)	Initial Resistance (Pascals)	Efficiency
FAC2-EP-01	495 x 395 x 48	495	50	G4
FAC2-EP-02	495 x 495 x 48	620	50	G4
FAC2-EP-03	622 x 395 x 48	620	50	G4
FAC2-EP-04	622 x 495 x 48	780	50	G4
FAC2-EP-05	749 x 495 x 48	930	50	G4
FAC2-EP-06	595 x 595 x 48	900	50	G4
