THE CLEAN AIR PEOPLE

APPLICATIONS:

Air conditioning, heating and ventilation, room air conditioners, paint spray booths.

The Rainbow Fibre Glass Panel Filter employs specially designed glass fibre mats manufactured in Australia solely for Rainbow Filters Pty Ltd

The filter pads are constructed from resilient, non-felting glass fibres which are resistant to most chemicals. These mats are mounted in a cardboard frame.

An efficient, inexpensive throwaway unit having a very high dust holding capacity and low resistance to air flow, the Fibreglass filter reduces both initial costs and maintenance.

Filters are available in 25mm and 50mm thick. The same media is supplied in both filters, only the frame differs in thickness.

25mm (1") Thick Cardboard Frames:

PERFORMANCE DATA			
- FIBREGLASS CARDBOARD FRAMED FILTERS -			
Product Code	Nominal Size (mm)	L/S @ 1.25 m/s	Clean Resistance
CB25-FG-01	495 x 395 x 25	307	25
CB25-FG-01	495 x 495 x 25	378	25
CB25-FG-03	622 x 395 x 25	378	25
CB25-FG-04	622 x 495 x 25	472	25
CB25-FG-05	749 x 495 x 25	708	25
CB25-FG-06	595 x 595 x 25	550	25
CB25-FG-07	NON-STD	?	25
CB25-FG-08	595 x 295 x 25	275	25

50mm (2") Thick Cardboard Frames:

PERFORMANCE DATA			
- FIBREGLASS CARDBOARD FRAMED FILTERS -
